DETAILED ITINERARY

The tour includes exploring all the major sites in the region within a day. Its all about stunning scenery and includes a truly memorable road trip to Cape Point Nature Reserve, a visit to Boulders Penguin Colony, a quick visit to Simonstown, a stroll through the streets of Kalk bay, (voted “hippest” suburb in the world by Forbes Magazine), then onto Muizenberg beach.

After Pick-up we make our way along the Atlantic Seaboard through Greenpoint, Seapoint promenade and Camps Bay beach, lined with beachside cafes and restaurants. We pass the Twelve Apostles mountain range and hotel to Hout bay harbour to board a boat cruise to Seal Island. En-route we will drive along Chapmans Peak, voted one of the most scenic drives in the world until we arrive at Boulders beach, the Penguin Colony that was started in 1982.

After admiring and learning about these cute little creatures in their natural habitat we will make our way to Cape Point, the Southwestern most point of Africa. Here we should see ostriches, wild buck, baboons and maybe even some elusive caracal. We will then walk up the slope (or via the funicular- guests expense) to take in the 360 degree panoramic views below. Thereafter we will stop at Simonstown to hear about “Just Nuisance” the only dog to be enlisted into the army as a fully-fledged able seamen. Driving through Fish Hoek we will stop at Kalk bay for a quick browse of the “Bohemian” boutiques before making our way to Muizenberg beach for ice-cream, a stroll and to see the iconic colourful beach huts before making our way back to the comfort of your hotel.
